DETAILED ACTION

The following is a quotation of the second paragraph of 35 U.S.C. 112:

The specification shall conclude with one or more claims particularly pointing out and distinctly claiming the subject matter which the applicant regards as his invention.

Claims 1-9 are rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention.

Regarding claim 1, the phrase "provided in" renders the claim indefinite. A phrase such as --provide on-- would be clear.

Regarding claim 2, --a-- should be inserted before "lower", second occurrence, in line 3 and "a", second occurrence, in line 4 should be --in said--.

Regarding claim 7, "sylinder", both occurrences, in line 6 should be --cylinder--.

The phrase "adapted to" in line 8 renders the claim indefinite since it fails to denote any particular structure.

The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

Claims 1, 2, 6 and 7 are rejected under 35 U.S.C. 102(b) as being clearly anticipated by Cochran, et al.

Note 26 in the reference meets the protective projections as broadly claimed.
